Brief on covering protected areas:

There is no single source to cover protected areas other than Wikipedia based reading, so use that judiciously.

We will also be covering national parks, biospheres reserves, lakes etc. asked in UPSC previous year papers.

This is very crucial because they tell you briefly what sites are important to cover.

ENVIS portal is a government owned portal. It does not discuss areas, sites or species in detail, but gives a general overview. Again, Wiki is your only recourse here.
