## About IPM 2025

The Core Philosophy of IPM program is to provide a SINGLE timetable that covers both the Prelims and Mains Syllabus in a holistic manner, enabling students to complete the syllabus part by part and be tested on it from the point of Prelims (MCQs) and Mains (Descriptive Answers) simultaneously.

Our experience in guiding thousands of aspirants has taught us that the integrated approach of preparation and practice has proven to be one of the most rational and practical approaches to date. This approach enables students to identify mistakes quickly as they practice and improve the quality and speed of their answer writing and solving multiple-choice questions.

Our entire strategy for the IPM TEST SERIES is driven by the unique EBS strategy

**ESSENTIAL** approach: emphasizes on building the basics

**BREAKTHROUGH** approach: tests the ability to link facts and concepts with Current Affairs.

**SIMULATION** approach: tests aspirants in an exam like environment to help them consolidate and finally put to test the effectiveness of their preparation. Taking tests regularly will ensure that it becomes a part of your routine, preparing you to perform well in every test without the usual accompanying jitters
